

Branded App Solution

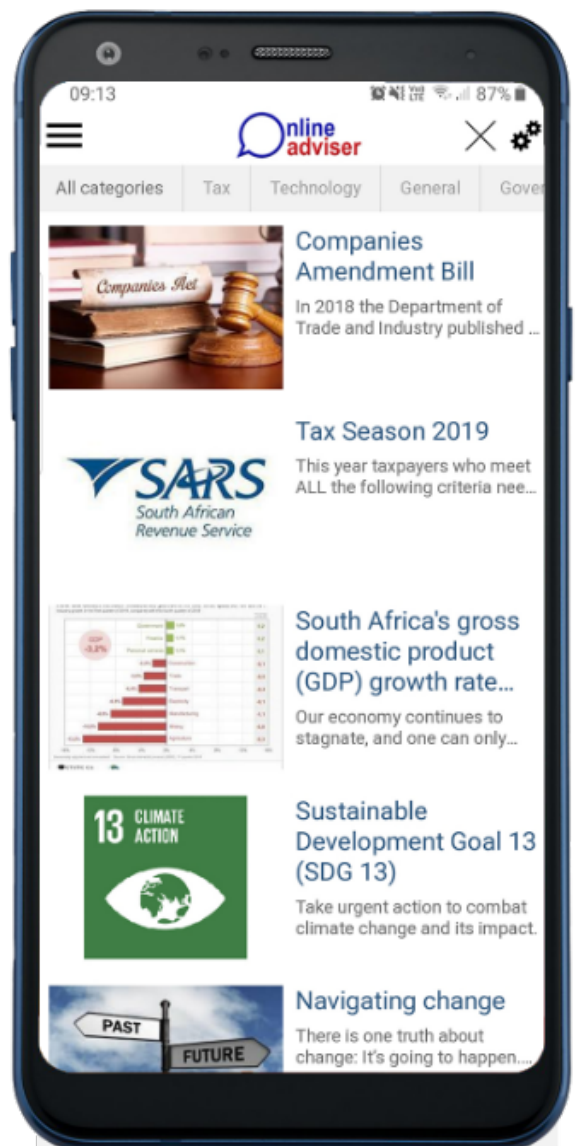

Why a mobile app?

A few reasons

- Digital landscape constantly changing, creating more opportunities
- New Normal created problems solvable by apps
- Over 50% of global web traffic is on Mobile
- 90% of Mobile use is on apps
- 3x use retention over Mobile sites
- 40% of online purchases are made via a Mobile
- 2nd Quarter 2020: 37bn app downloads (Record)

Benefits of an app

- Direct access to smartphone functionality and fully optimized
- Powerful communication tool (Push Notifications)
- Accessible offline giving 24/7 access to information
- Brand differentiator

Our new normal

A few challenges

- Communicating and informing clients
- Offering clients assistance remotely
- Becoming first point of contact for accounting related content
- Remaining visible to both current and prospective clients

How apps overcome these challenges

- Push notifications offer powerful way to directly communicate and inform your clients
- Accessible offline, apps offer 24/7 access to information for clients even when you are too busy to assist
- Creating a wealth of knowledge and content will make you the trusted provider of accounting, financial and tax information
- Apps increase your visibility to both current and prospective clients

Be visible on all platforms

Download examples on your preferred platform

App Store (iOS)

Google Play (Android)

Progressive Web Apps (Web)

- Helps keep in contact and remain visible with your clients

Statistics

- Access to usage and technical statistics to track apps performance
- It is also possible to integrate external tools: Flurry, Count.ly, Google Analytics, etc.

Why Profmark's Apps?

Why choose Profmark instead of building your own app?

Though building your own app does come with benefits, more often than not these benefits are heavily outweighed by the price as well as the time spent on creating these apps while Profmark offers you the ability to spend a fraction of the cost as well have your app developed and published in a lot shorter timeframe. If you are to choose an app through Profmark, there are a host of other benefits that will be available to you:

Support

- Profmark's team will be there to help support you even after the creation of your app
- Assisting with a general problem that has occurred, helping to assist with integration or implementation of a new feature, change of design, etc.

Publishing & Updating

- Profmark's team will handle all publishing and updating to the various stores
- Ensures that your app is always compliant with the app store guidelines
- You will never have to get your hands dirty with the submission process

New Features

- Constantly searching for new functionality and features to add to our apps which will benefit your clients
- We will alert you when a new feature is available and will assist with the implementation

Familiar with Accountants

- Profmark has been successfully servicing the professional market for over 25 years
- We are excited to be able to work with you and create your perfect app to help keep your clients informed

Modes of Distribution

How will my audience be able to access my app?

iOS - App Store

- The Apple AppStore (iOS) was the first ever app download platform to be launched
- An App on the App Store is a guarantee of quality
- Ensures a modern image for your company
- We offer downloadable apps on both iPhone and iPad

Android - Google Play

- World's most popular platform - more than 3 million Apps are available
- An App on the Google Play Store opens the doors to the world's largest community of mobile users

Publication on the Stores is a complex and tedious process. Our job is to create and distribute mobile apps. We take care of publishing your app for the first time on the stores and we also take care of the updates.

PWA - Progressive Web Apps

- The PWA (Progressive Web App) technology gives possibility to publish your app on the Web.
- It will be accesible via any terminal (mobile or computer) and with any browser
- Allows to reach a much larger audience
- To optimize your visibility and anchor your brand, it will be possible to install your domain name on the PWA.
- A lot faster and many more features than traditional mobile website

Admin Dashboard

An easy and intuitive administration tool available to you.

Easy

- Everything happens online. No software to install, you just need a computer and an internet connection
- You can create content (video, text, audio, etc.), change a menu item or send a notification in a few clicks

Fast

- Add articles (text), photos, videos, audio, forms, contact information, map points, etc.
- Everything is updated in real time

Practical

- Preview your changes live, update your app on all platforms at the same time (iOS, Android, Web).
- Notify users for a particular event, an important update or new article using customized messages

Effective

- Share your app on social networks, integrate a QR code to your advertising elements, add download buttons to your site and your email signature
- Everything is at your disposal to ensure an efficient promotion of your app.

The screenshot displays the Admin Dashboard interface. At the top, there's a navigation bar with 'Online Adviser' and 'Project updated' status. The left sidebar contains a menu with options like 'Dashboard', 'My app', 'CONTENT', 'Add', 'Content list', 'Sections', 'Comments', 'Trash Can', 'DESIGN', 'General design', 'Navigation menu', 'Home', 'Sections Design', 'Theme library', 'Marketing', 'Statistics', 'Publish', 'Settings', 'Add-ons', and 'Profmark Team'. The main area is titled 'Content list' and features a table of content items. The table has columns for Title, Date, Type/Sections, and Status. Each row represents a published article, including titles like 'POPIA Topic', 'Re-Commencement Of Companies And Close Corporations Regulatory Compliance Obligations', 'Government's Response To The Rating Actions Of S&P Global Ratings, Fitch Ratings And Moody's Investors Service', 'Developing Sustainable Business Models', 'Update On The Public-Service Wage Bill', and 'Tax Revenue Performance In The Initial Stage Of The Pandemic'. Each article entry includes a logo, a 'Published' status indicator, and a 'View' link. A '+ ADD CONTENT' button is visible in the top right of the content list area. A 'Support' button is located in the bottom right corner of the dashboard.

Title	Date	Type/Sections	Status
